## STEAM® SUBSCRIBER AGREEMENT

Table of contents:

1. Registration as a subscriber; application of terms to you; your account
2. Licenses
3. Billing, payment and other subscriptions
4. Online conduct, cheating and illegal behavior
5. Third-party content
6. User generated content
7. Disclaimers; limitation of liability; no guarantees; limited warranty & agreement
8. Amendments to this agreement
9. Term and termination
10. Applicable law/mediation/jurisdiction/attorney's fees
11. Dispute resolution/binding arbitration/class action waiver

**Result:** After you finish writing down the information that is needed, the end result should look like this.

# Chapter 3. How can you use all the functionalities of Steam(requirements) ?

Here im going to show you how to unlock all the functionalities that Steam can offer.

**Prerequisites :** You need to download the Steam client first before you can use it's functionalities. Here is the link from where you can dowload it. <https://store.steampowered.com/>

You will need to spend at least **\$5.00 USD** within the Steam store.

Some examples of purchases that grant access to these features are:

- Adding the equivalent of \$5 USD or more to your Steam Wallet.
- Purchasing game(s) that are equal to \$5 USD or more from the Steam store.
- Adding a Steam Wallet card that is equal to \$5 USD or more to your Steam account

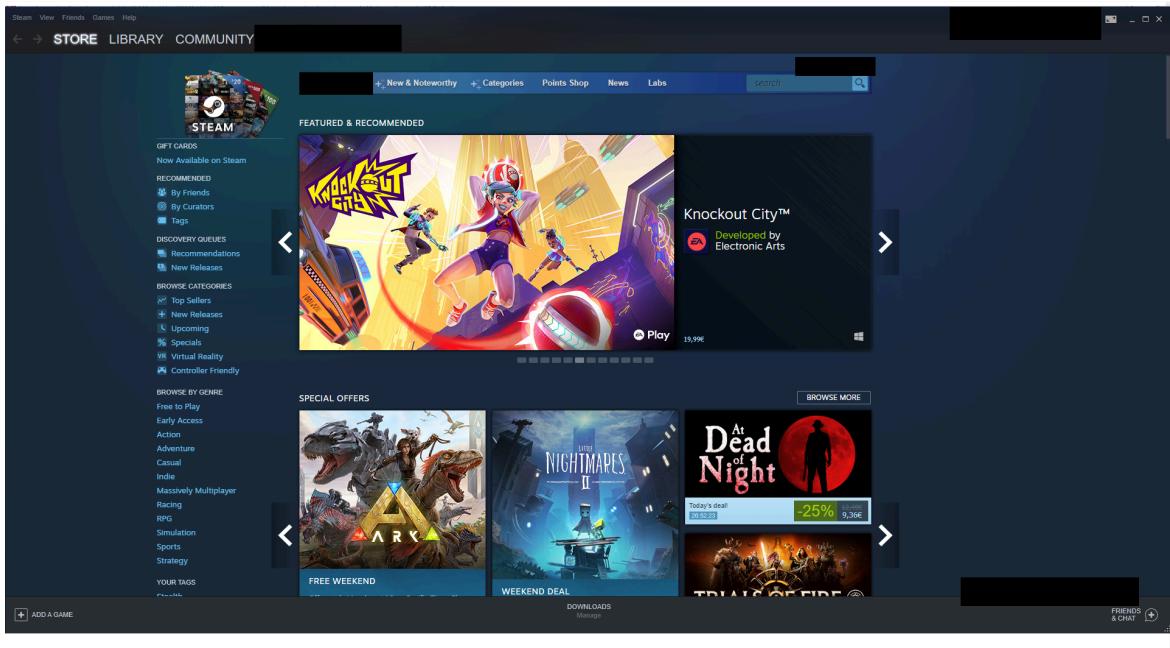

Each Steam purchase total will be tracked in USD. If your Steam store's currency isn't in USD, it will be tracked and converted to USD automatically using daily exchange rates.

# Chapter 4. How to sent a friend request ?

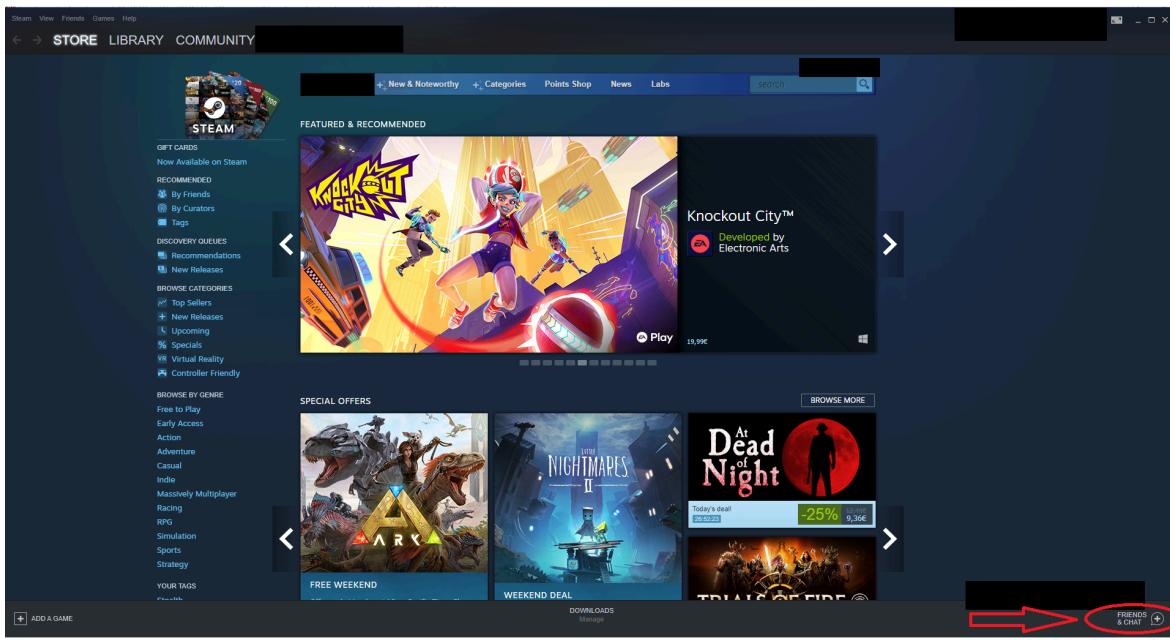

Here im going to show you how to sent a friend request.

**Prerequisites :** You need to download the Steam client first before you can sent a friend request. Here is the link from where you can dowload it.<https://store.steampowered.com/>

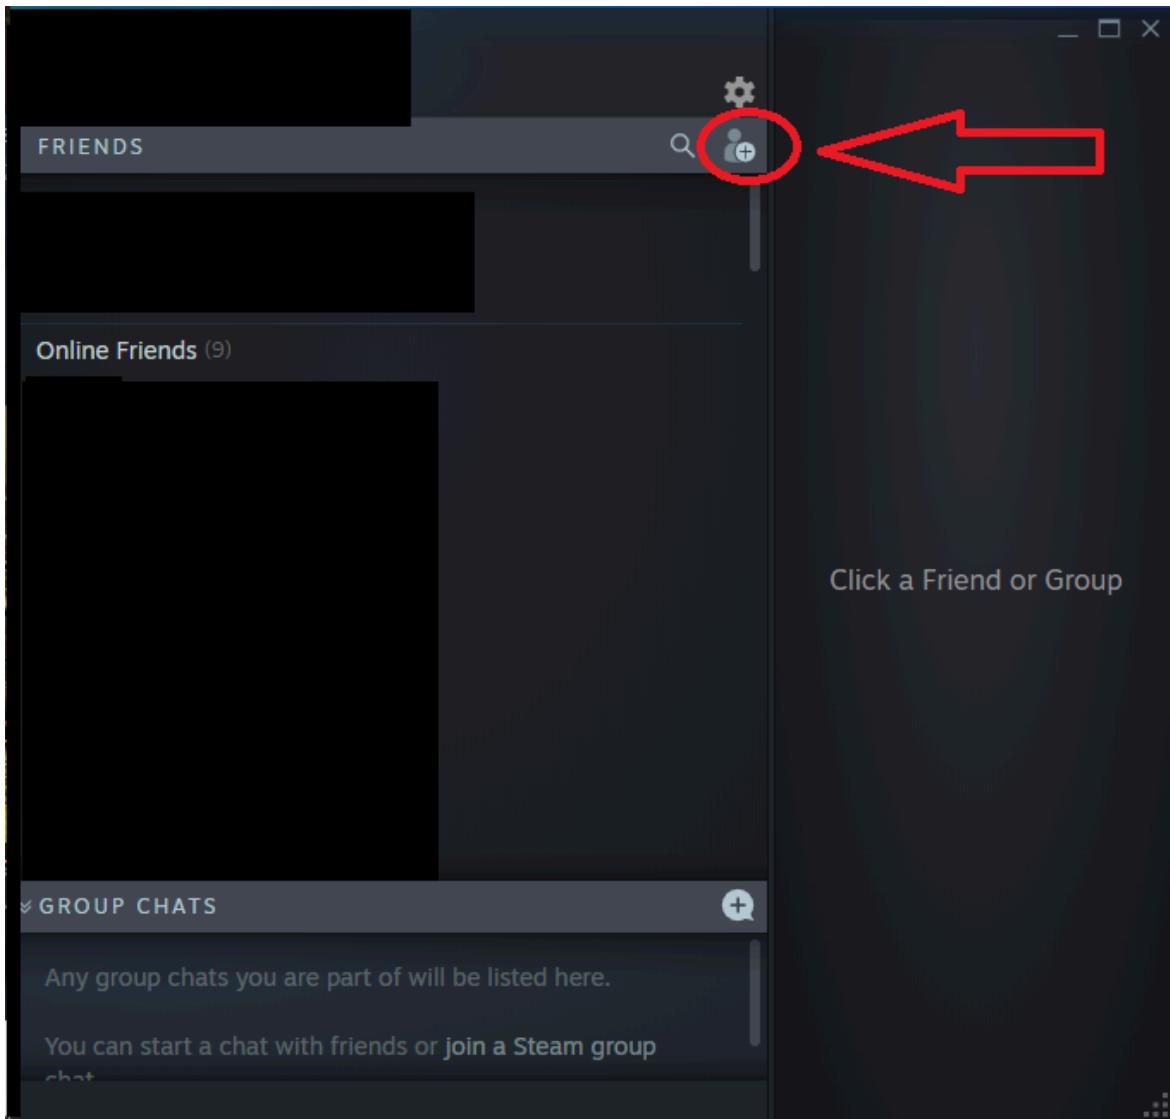

1. Open the **Steam** client.

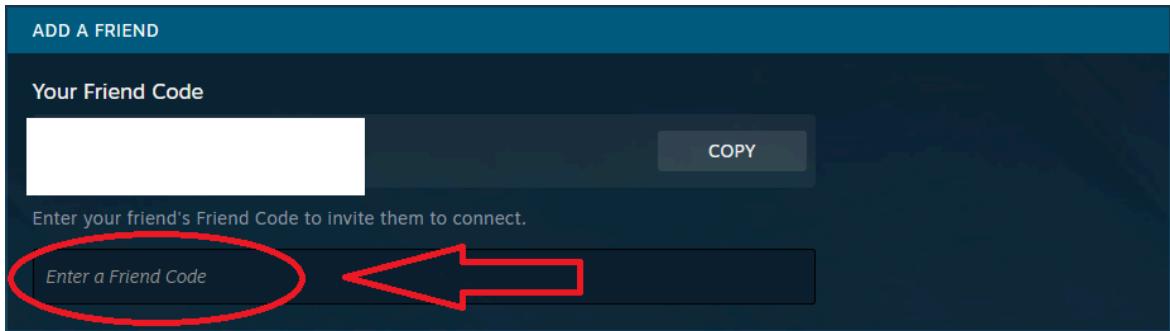

2. After you open the **Steam** client, you will see at the bottom of your right screen the button **FRIENDS & CHAT**. Click it.

3. Then it will open a new window. After that you can click the button "**Add a friend**".

4. After you click "Add a friend " button, it will appear a new tab with your **code** and a space to write you'r friends **code** to add them.

5. After you write down you'r friend's code then press the button "**Enter**" from your keyboard.

**Result:** They'll get a notification that you've sent a friend request. When they accept the invite, you'll be added to each other's Friends List.

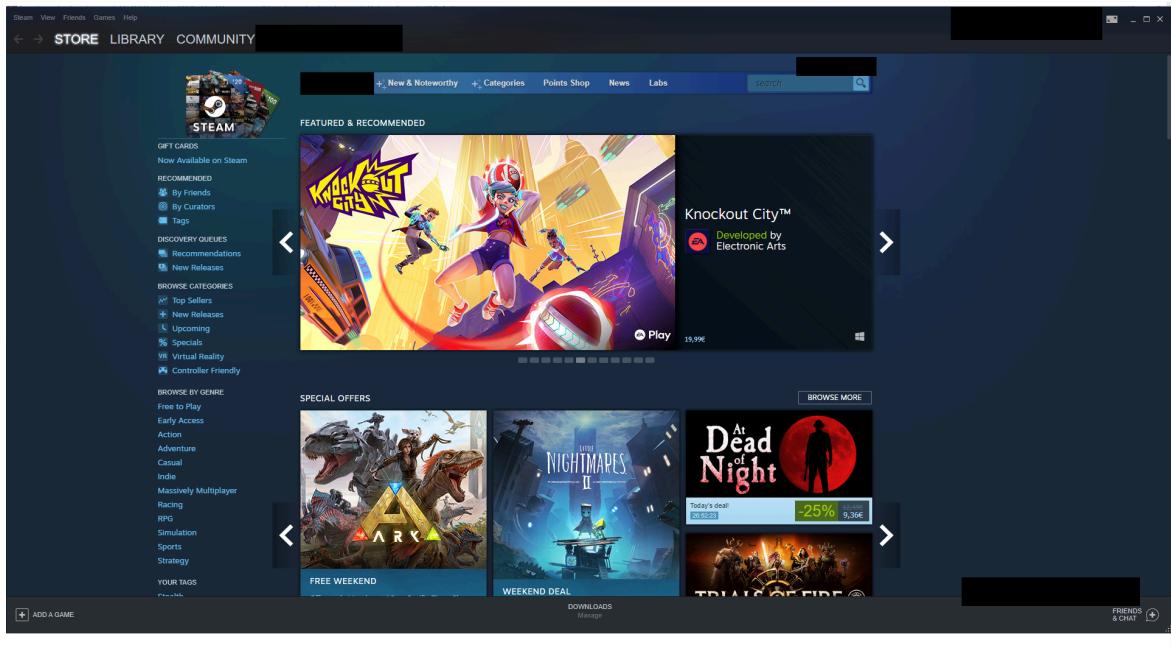

# Chapter 5. How to search your type of game ?

Here im going to show you how to search you'r type of game.

**Prerequisites :** You need to download the Steam client first before you can search for you'r type of game.

Here is the link from where you can dowload it.<https://store.steampowered.com/>

1. Open your **Steam** application

2. Then you click the button "**Categories**". Its location is next to "**New & Noteworthy**" and "**Points Shop**"

The screenshot shows the Steam Store interface. At the top, there are tabs for 'STORE', 'LIBRARY', and 'COMMUNITY'. Below these, a sidebar on the left contains links for 'GIFT CARDS', 'Now Available on Steam', 'RECOMMENDED', 'DISCOVERY QUEUES', 'BROWSE CATEGORIES', 'BROWSE BY GENRE', and 'YOUR TAGS'. The main content area features a large 'Categories' section with a red circle and arrow highlighting the 'Categories' tab. This section is organized into several categories: SPECIAL SECTIONS (Free to Play, Demos, Early Access, Controller Friendly, Remote Play, Software, Soundtracks, Virtual Reality, VR Hardware, Mac OS X, SteamOS + Linux, For PC Cafés); GENRES (Action, Role-Playing, Strategy, Adventure & Casual, Simulation, Sports & Racing); THEMES (Anime, Horror, Mystery & Detective, Open World, Sci-Fi & Cyberpunk, Space, Survival); and PLAYER SUPPORT (Cooperative, LAN, Local & Party, MMO, Multiplayer, Online Competitive, Singleplayer). Below this, there are promotional banners for games like 'BRIGADOR', 'BATTLEFIELD 3 PREMIUM EDITION', 'TOTAL WAR: WARHAMMER', 'Rustler', 'BATTLEFIELD GOTHIC ARMADA', and 'BATTLEFIELD 4'. At the bottom, there is a 'DOWNLOADS' section with a 'Manage' link.

3. After you write down your friend's **code** then press the button "**Enter**" from your keyboard.

The screenshot shows the Steam store page for **Total War: WARHAMMER**. At the top, there is a promotional banner for the game's release on **MAY 24TH 2016**, which includes a pre-order offer for the **CHAOS WARRIOR RACE PACK FREE**. The game's logo, featuring a skull and the word "SKULLS", is prominently displayed. To the right of the banner, there is a badge indicating a **FESTIVAL Up to 85% OFF**. Below the banner, there is a detailed description of the game: **Addictive turn-based empire-building with colossal, real-time battles, all set in a world of legendary heroes, giant monsters, flying creatures and storms of magical power.** The developer is listed as **CREATIVE ASSEMBLY** and the publisher as **SEGA**. The release date is **24 May, 2016**. Below the developer and publisher information, there are popular user-defined tags: **Strategy**, **Fantasy**, **RTS**, **War**, **Games Workshop**, and others. At the bottom of the page, there is a call-to-action button labeled **Buy Total War: WARHAMMER** with a **WEEKEND DEAL!** offer ending on **10 June**. The button shows a **-75%** discount from **59.99€** to **14.99€**, and there is a **Add to Cart** button. On the right side of the page, there is a section titled **Is this game relevant to you?** which lists similar games like **TOTAL WAR: ROME II** and **DAWN OF WAR**, along with their playtime records (82 hrs on record for Rome II and 8.9 hrs on record for Dawn of War). There is also a note indicating the game is currently popular.

**Result:**

# Chapter 6. How to purchase a game ?

Here im going to show you how to purchase you'r favorite games.

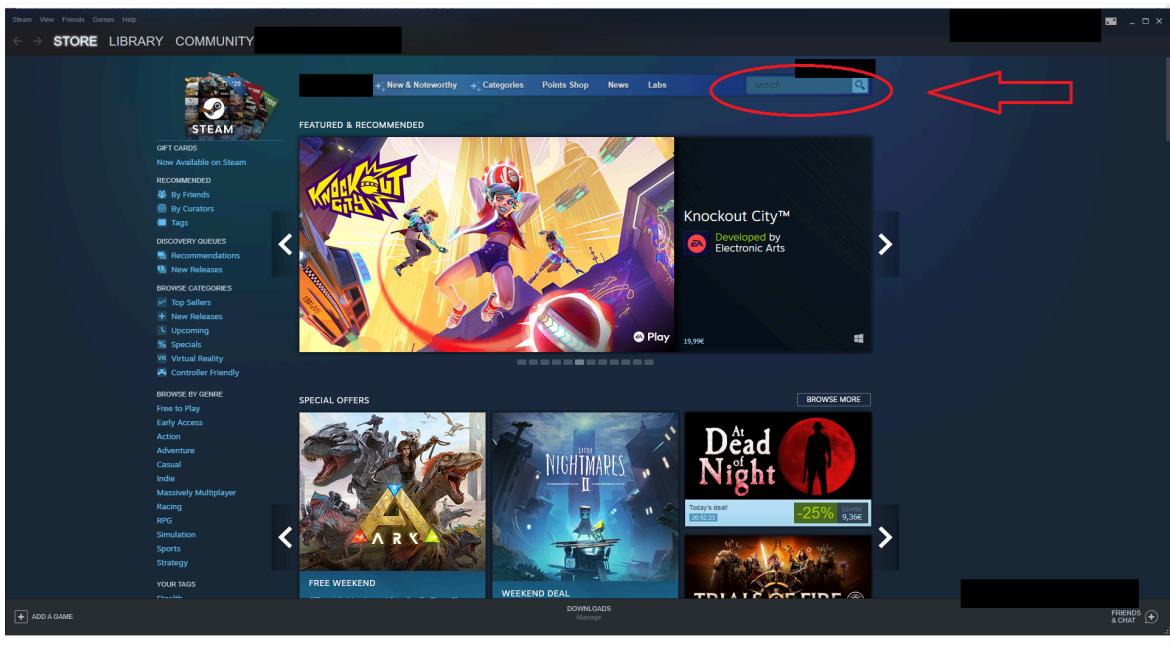

**Prerequisites :** You need to download the Steam client first before you can purchase you'r favorite game.

Here is the link from where you can dowload it.<https://store.steampowered.com/>

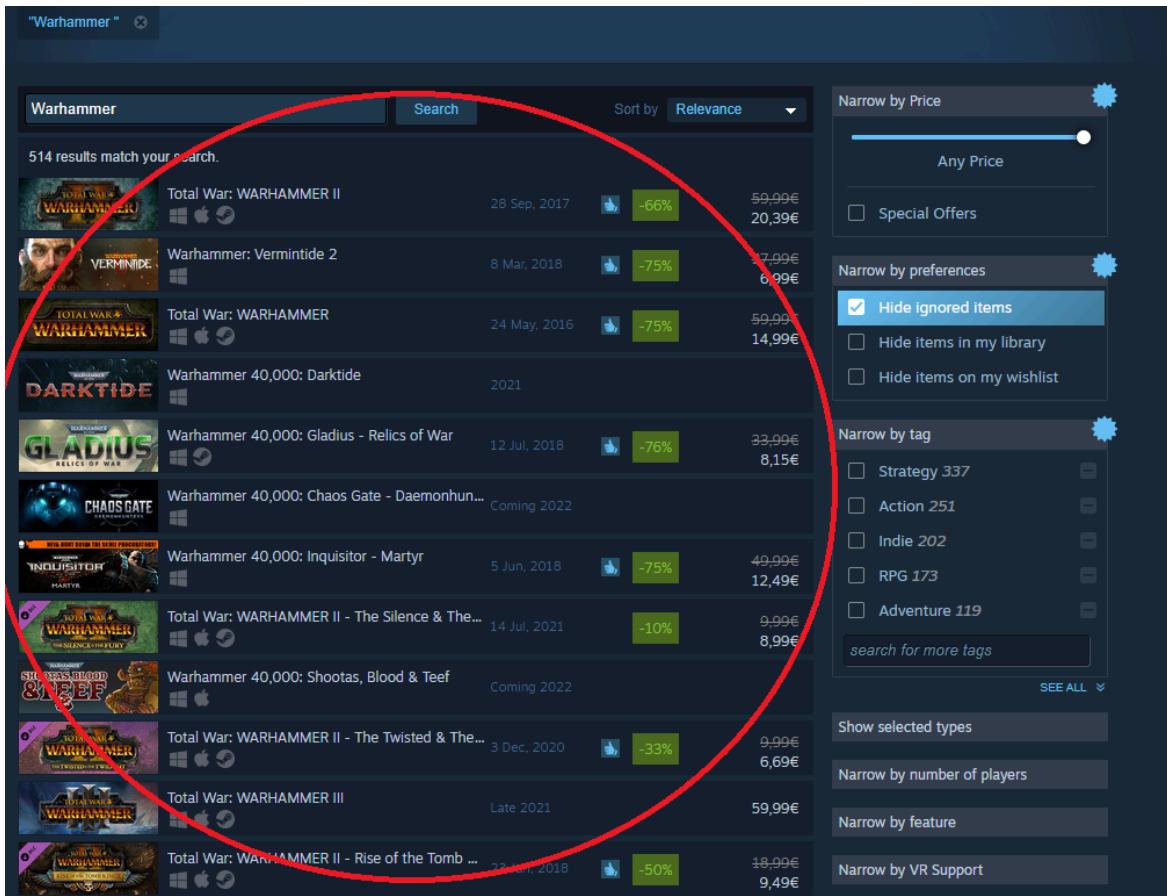

1. Start you'r **Steam** application from you'r executable file.

2. Then go to the "**search tab**" and add the title of the game that you want to search.

3. After you add you'r game title It will show you the result of your search.

4. Then you can browse and click the "**product**" that you wish to inspect. It will show you a detail screen of the game.

5. After you decide that you want to purchase this "**product**" you can click the "**Add to Cart**" button.

## Chapter 8. Concept - Steam

Steam is a video game digital distribution service by Valve. It was launched as a standalone software client in September 2003 as a way for Valve to provide automatic updates for their games, and expanded to include games from third-party publishers. Steam has also expanded into an online web-based and mobile digital storefront. Steam offers digital rights management (DRM), server hosting, video streaming, and social networking services. It also provides the user with installation and automatic updating of games, and community features such as friends lists and groups, cloud storage, and in-game voice and chat functionality.

The software provides a freely available application programming interface (API) called Steamworks, which developers can use to integrate many of Steam's functions into their products, including in-game achievements, microtransactions, and support for user-created content through Steam Workshop. Though initially developed for use on Microsoft Windows operating systems, versions for macOS and Linux were later released. Mobile apps were also released for iOS, Android, and Windows Phone in the 2010s. The platform also offers a small selection of other content, including design software, hardware, game soundtracks, anime, and films.
